**CREATING SUSTAINABLE WELDING EXCELLENCE
THROUGH
INDUSTRY - ACADEMIA SYNERGY**

Translating Vacation to Vocation

... This time, on a virtual platform!

THEME

Creating Sustainable Welding Excellence through Industry - Academia Synergy

Translating Vacation to Vocation

ABOUT THE EVENT

Stakeholders of the welding industry will be provided a platform to understand interventions needed for the growth of the sector

The programme will focus on the issues that each stakeholder faces with regard to skilling, knowledge exchange, issues in production, critical processes in manufacturing, moving towards Lean manufacturing & Industry 4.0.

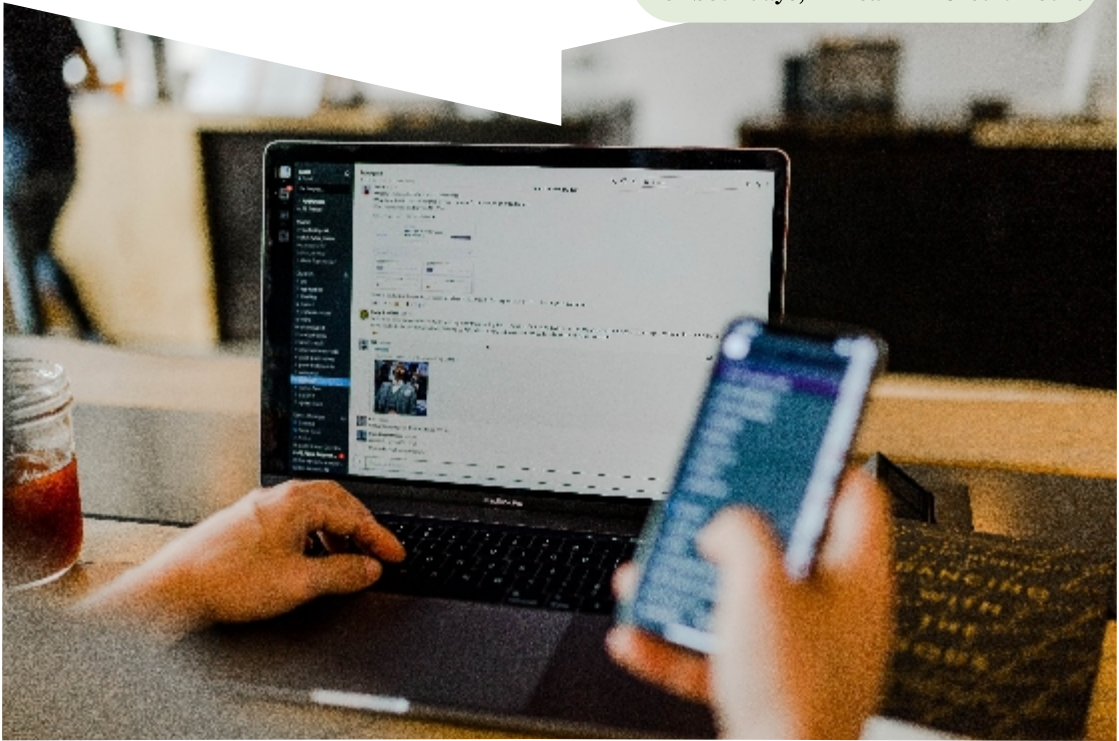

Scientific and engineering principles behind welding must replace the art of welding for it to achieve its potential as a preferred state-of-the-art manufacturing process.

OBJECTIVES & TAKE AWAYS

Participants shall be able to

- ▲ Identify specific interventions needed by each group to boost growth
- ▲ Identified interventions to be charted out and worked upon
- ▲ share best practices and benefits
- ▲ Preparing both Industry and Academia for Industry 4.0
- ▲ Various programmes in silos to come together on a common platform.

Participation by ECI registered Engineers, for both days, will earn 12 Credit Hours

TENTATIVE PROGRAMME

Day 1:

- Session I : Steel Fabrication : Advantages, Challenges and Solutions
- Session II: Mechanisation/ Automation : Challenges in Adoption

Day 2:

- Session III: Critical Welding Processes: Advantages, Challenges and Solutions
- Session IV: Prevention of Weld Defects : Best Practices through Case Studies

Conference | Networking | Job Search | Idea Exchange

WHO SHOULD ATTEND?

Industry | Academia | OEM | Associations |
Govt. Agencies | PSUs
in the Welding / Fabrication / Manufacturing sector

THE TECHNICAL COMMITTEE

Headed by Mr. M.P.Jain, Ex ED,
EIL and Mr. N. Rajasekaran, DGM,
BHEL.

IndiaWelds or SMICPL is a DIPP,
Govt.of India Recognised StartUp that
is working to *Make Technology
Adoption Easy.*

IndiaWelds is a platform to build a
systematic and continuous support
system to the welding and
manufacturing industry for the
enhancement of the welding and
manufacturing sector.

We work to measure the skill and the
knowledge gap and devise methods to
decrease that gap for healthier industry.

Through various activities, we work to
put innovations and existing
technologies to the best use.

Can we learn welding online?

Explore what all we can, in
our 'Welding over Web' Online
Workshop series.

Conducted by industry and
academia stalwarts and
organised by us, we make
sure that learning never stops!

Till now we have trained 600+
welding enthusiasts from India
(Govt./ Private/ Academia)
apart from International
professionals online!
