ABOUT INDIAWELDS

IndiaWelds or SMICPL is a DIPP, Govt. of India Recognised StartUp that is working to *Make Technology Adoption Easy*.

IndiaWelds is a platform to build a systematic and continuous support system to the welding and manufacturing industry for the enhancement of the welding and manufacturing sector.

We work to measure the skill and the knowledge gap and devise methods to decrease that gap for healthier industry.

Through various activities, we work to put innovations and existing technologies to the best use.

TAKE AWAY FROM THE EVENT

- Participants shall be able to identify specific interventions needed by each group to boost growth.
- Identified Interventions to be charted out and worked upon to share best practices and benefits
- Preparing the ground for both Industry and Academia to adopt Industry 4.0 and automation.
- Various programmes in silos to come together on a common platform

ABOUT THE EVENT

Scientific and engineering principles behind welding must replace the art of welding for it to achieve its potential as a preferred state of the art manufacturing process

Stakeholders of the welding industry will be provided a platform to understand interventions needed for the growth of the sector.

The programme will focus on the issues that each stakeholder faces with regard to skilling, knowledge exchange, issues in production, critical processes in manufacturing, moving towards Lean Manufacturing and Industry 4.0.

This year is the 4th edition of the event.
